Representative services

**EU REACH OR / Article 95
Representation**

**UK REACH OR / Article 95
Representation**

K-REACH OR (Korea)

KKDIK OR (Turkey)

■ Representation allows companies to place a substance on a market in an area where they may not have a legal presence. This has a number of benefits including the protection of confidential information and the ability to supply to numerous customers within a particular country/economic area under one registration. In the EU this role is known as Only Representation (OR) and allows a non-EU manufacturer to appoint an Only Representative to fulfill EU regulatory obligations on their behalf. This form (or similar forms) of representation is also available in a number of other countries.

■ CEHTRA has sites in both the EU and UK and is able to offer Only Representative services under REACH as well as Article 95 Representation under both the EU and UK BPR. With the assistance of locally based partners, we are also in a position to offer representative services in Korea, Russia and Turkey.
