

Your Specialties, Our Expertise

REACH Authorisation

REACH Authorisation is a European risk management measure which aims to limit human and environmental exposure to substances considered of very high concern. CEHTRA's team is experienced and the entire dossier is done in-house, from the exposure estimation to the assessment of socio-economic impacts.

Key Services

Complete Authorisation dossier

Drafting the whole dossier in coherence (CSR, AoA, SEA)

Advocacy

Protect your interest (regulatory watch, supply chain securisation, public consultation...)

Conformity

Toward the Authorisation or restriction obligation
