

Imagine when **Co-formulants' knowledge** is powered with **digital technology**

Introducing

One base for **all** Co-formulants

First reliable **Co-formulants tool** that belongs to **Biocides community**

What is **1bCoF**?

It's a **concept**, a **tool** and a **vision** designed for **Biocides community** by its experts. 1bCoF is the first consortium with a *digital touch* where Biocides experts and companies can reliably and securely contribute, share and access valuable information on co-formulants. With its easy to use interface, information remains at your fingertips and accessible anywhere, anytime.

Why **1bCoF**?

- It provides **one reliable source of harmonized data** across the biocides industry to minimize the regulatory risk of new products, optimize their time-to-market and **shield their brands**.
- It **saves costs, time and resources** by allowing a shared access to existing co-formulants data.
- It **shares costs to compile data** with **one reliable and harmonized platform for co-formulants** for all your R&D and Regulatory needs.
- It brings additional support from biocides experts to help you with **regulatory compliance** at **optimized costs**.

Why this **1bCoF** logo?

Let's say, a modern consortium deserves a modern logo. It writes 1bCoF reusing the same digit. It reflects the core idea to **share reliable and harmonised data between companies**. The blue circle stands for One, to hint **One reliable base for all co-formulants**.
